A
P2 ($\lambda_N = 2$)
K-mode amplitude of D / D^*
time t (dimensionless)
$a_D(t)/a_D(0)$, $t \le 15$
B
P3 ($\lambda_N = 5.623$)
K-mode amplitude of D / D^*
time t (dimensionless)
$a_D(t)/a_D(0)$, $t \le 15$
exact eigenvector (this work): fit 0.1031, early [0,8] 0.103
componentwise-scaled (v1): fit 0.1137, early [0,8] 0.443
predicted pole 0.103067
exact eigenvector (this work): fit 0.2163, early [0,8] 0.216
componentwise-scaled (v1): fit 0.2573, early [0,8] 0.562
predicted pole 0.216300
